Shadows and Body Motion: Using Technology to Teach Ratio and Proportions

Summer 2012 Professional Development

Funded by the California Math Project and the San Diego Math Project

Teachers of grades 6 and 7

For teachers from San Diego Unified and Lemon Grove School District
(maximum of 20 teachers)
(preference given to teams of 3 – 4 from a school)

Content focus:
California Common Core State Standards focusing on ratio and proportion, using technology (grades 6 – 7). Each school-site team of teachers will receive one motion detection system to use at its site. Additional systems will be available for teachers who are not part of a team to share.

- Participating teachers will be paid $25/hour of workshop participation (30 hours in the summer and 2 hours during the school year)

- Reserve your spot online at http://crmse.wufoo.com/forms/summer-2012-professional-development/

- Space is limited, and slots will be allocated based on date received, so don’t delay.

- For more information, contact Nadine Bezuk at nbezuk@mail.sdsu.edu
