Mathematics & Science Education Research Seminar Series for 2015

Featuring authors and issues from the forthcoming NCTM Handbook of Research on Mathematics Teaching and Learning

Sponsored by The UCSD/SDSU Mathematics and Science Education Ph.D. Program, and a charitable gift from Larry and Judy Sowder.

How Curriculum Matters for Teaching and Learning
January 23, 2015
9:00–10:30 am
UCSD, Natural Sciences Building Auditorium

Jinfa Cai, University of Delaware

Research on Classroom Discourse
February 2, 2015
9:00–10:30 am
UCSD, 4500 Pacific Hall

Beth Herbel-Eisenmann
Michigan State University

Learning Trajectories in Mathematics & Science
February 27, 2015
9:00–10:30 am
UCSD, 4500 Pacific Hall

Joanne Lobato
San Diego State University
Ravit Golan
Duncan
Rutgers University

Research on the Teaching & Learning of Measurement
April 6, 2015
9:00–10:30 am
UCSD, Natural Sciences Building Auditorium

Jack Smith, Michigan State University

Undergraduate Learning in Mathematics & Science
May 1, 2015
9:00–10:30 am
UCSD, Natural Sciences Building Auditorium

Chris Rasmussen
San Diego State University
Renee Cole
The University of Iowa

Research on Mathematics Teaching
May 18, 2015
9:00–10:30 am
UCSD, Natural Sciences Building Auditorium

Vicki Jacobs
The University of North Carolina at Greensboro
