

Section Switchers

(students enrolled but trying to crash a different section):

If you are currently enrolled in a lab but would like to switch sections, you **MUST** have a valid reason (work or class conflict), and you **MUST** provide documentation for this reason. You should email the professor the reason why you absolutely need to switch sections.

You **MUST** put your name on the **Switcher List** in the lab and indicate your preference. You **MUST** attend and do the lab work in your **enrolled** section, not the one you are trying to crash. You should inform the TA in the section you are enrolled in what your plans are. We will do our best to accommodate you after the crashers are sorted out.

Note: Incomplete students are not crashers. They should inform the TA, Marlene and the Professor if they have an incomplete and are trying to finish the course. Any questions, please see Marlene DeMers.
