

Affiliate Services Internship

Individuals who seek experience in identifying critical issues and solutions to the challenges of dwindling funding and increasing needs in the mental health field faced by national and local advocates should apply. The Mental Health America Affiliate Services Department provides our 320 state and local affiliates nationwide with training and technical assistance on organizational capacity issues, helping affiliates work effectively in providing mental health education, advocacy and services in their local communities. Any undergraduate or graduate student interested in gaining experience in designing technical assistance programming in Non-profit Management issues should also apply. The applicant should also have MS Office, internet research and general database experience, with the ability to read balance sheets a plus. Interested candidates please send your resume via e-mail to interns@mentalhealthamerica.net. In the subject line reference "Affiliate Services Internship".
