

## **Economic Geologist (Research) – Geologic Mapping**

**The U.S. Geological Survey, Alaska Science Center is seeking a full-time, permanent Research Economic Geologist with geologic mapping expertise in Anchorage, Alaska**

The main purpose of this position is to conduct research in mineral resource and geologic investigations that support mineral resource assessments and to collaborate with other scientists in planning, organizing, conducting, and reporting mineral resource assessments that range in scope from local to national. The emphasis in mineral resource and geologic investigations is to identify the geologic setting, genesis, and resource potential of mineral deposits in Alaska. A level of experience commensurate with a Ph.D. in earth sciences is desired.

The Alaska Science Center is a multi-disciplinary organization consisting primarily of biologists, hydrologists, geologists, and geographers. Integrated science is increasingly important, and the ability to work with these, and related, scientific disciplines would be an asset.

This is a permanent position with starting salary ranging from \$46,974 to \$56,301 depending on level of qualifications, plus benefits, and a non-taxed 24% Cost of Living Allowance (COLA). A relocation incentive may be offered to qualified applicants. Candidates must be U.S. citizens. The job will be listed on the USGS Online Automated Recruitment System (OARS) website as a Research Geologist, GS-1350-11/12, under announcement number WR-2007-0529 for current or former federal employees with status and WR-2007-0530 for public applicants. Refer to the announcement for information on who may apply and qualifications required. The opening date for applications is anticipated to be 9/01/07, and the closing date is 9/30/07. A complete description of the position and on-line application can be found at <http://www.usgs.gov/ohr/oars/>. All applications must be submitted using the on-line system. For additional information about the position, contact Jeanine Schmidt at [jschmidt@usgs.gov](mailto:jschmidt@usgs.gov). For information on the application process, contact Nina Fralick at 916-278-9388 or [nfralick@usgs.gov](mailto:nfralick@usgs.gov). The USGS is an Equal Opportunity Employer.
