Public Health

The Structure of Public Health in Mexicali and Imperial County: Barriers and Facilitators to Cross-Border Cooperation

Donna Castañeda and Maria Peinado
Imperial Valley Campus of San Diego State University

Outline

I. Description of the structure of the public health systems in Mexicali and Imperial County, pointing out areas of similarities and differences

II. Description of the public health challenges that each area faces. These are similar in some cases, but in others they differ.

III. Using case examples will describe and discuss successes and failures in cross-border cooperation. From these, will identify factors that have been barriers to, as well as those that have facilitated, cross-border cooperation.

IV. Will end with a set of recommendations that can be used by interested parties to guide future cross-border cooperative efforts surrounding public health issues.
